

ABOUT THE INSTITUTE

Aryan Institute of Engineering and Technology (AIET), Bhubaneswar, is an engineering institution in the Eastern Zone of Odisha, which was established in 2009. The institution holds Grade "A" accreditation from NAAC for the period 2022 to 2027 and is approved by AICTE, New Delhi, affiliated to Biju Patnaik University of Technology, Odisha situated at Barakuda, Bhubaneswar. It is surrounded by a quiet and peaceful environment. Aryan Institute of Engineering and Technology runs under the aegis of "Aryan Educational Trust". AIET has grown from strength to strength, establishing top of the line educational institutes in various discipline. AIET is committed to delivering top-quality education to motivated and talented students. Backed by a team of experienced and accomplished faculty members, the institute continuously embraces innovative approaches to enhance the standards of teaching and research. Aryan Institute of Engineering and Technology runs various departments M.Tech, B.Tech and has state-of-the-art departments like Civil Engineering, Computer Science & Engineering. Electrical Engineering. Electrical & Electronics Engineering, Electronics & Communication Engineering and Mechanical Engineering. AIET fosters a supportive and enriching learning environment, where approachable faculty and actively involved students collaborate to achieve excellence. At AIET, students are encouraged to explore emerging fields and contribute to innovative developments. Faculty members guide them to lead professionally rewarding and successful lives, while also nurturing a passion for lifelong learning and personal growth.

IMPORTANCE OF UHV FDP

This FDP is structured to impart a deep understanding of the significance and practical application of universal human values across various facets of life. It emphasizes the promotion of ethics and morality, the enhancement of interpersonal relationships, the cultivation of a cohesive society, and the contribution to global peace and harmony. Additionally, it focuses on fostering personal development and addressing contemporary challenges. Universal Human Values FDPs are instrumental in nurturing professionals who not only excel in their career but also make meaningful contributions to their communities and the world at large. This program will equip participants with the skills to mentor students effectively, guiding them towards developing a holistic and well-rounded vision of life.

OBJECTIVE

- Cultivate a holistic vision of life
- Foster socially responsible behavior
- Promote environmentally sustainable practices
- Uphold ethical standards in all aspects of life
- Develop competence and capabilities for maintaining health and hygiene
- Instill a deep appreciation for excellence and nurture a sense of gratitude
